

# Concrete Saw Series

## ATP Hand Held Concrete Saws

ATP hand held pneumatic saws are your economical answer to those difficult sawing needs in concrete, masonry, asphalt, brick and concrete block cutting.

### Features:

- Powerful Air Motor and Rugged Gearbox for low maintenance and long life, no belts or carburetors to maintain.
- Wet or Dry Cutting of concrete, asphalt and other materials
- Accepts either Diamond or Abrasive saw blades
- Adjustable Blade Guard for maximum versatility
- Built in Air Motor lubricator for maximum motor performance and life
- No gasoline or engine exhaust to mess with

**ATP HHS-14**

**ATP HHGS-18**

## ATP HAND HELD SAWS

| MODEL#      | Maximum Cut Depth | Maximum Blade Diameter | HP     | CFM Required At 90 PSI | Drive and RPM   | Weight Lbs. |
|-------------|-------------------|------------------------|--------|------------------------|-----------------|-------------|
| ATP HHS-14  | 4"                | 14"                    | 5 hp   | 80 CFM                 | Direct 5000 rpm | 22 lbs.     |
| ATP HHGS-18 | 7"                | 18"                    | 9.5 hp | 85 CFM                 | Gear 2900 rpm   | 28 lbs.     |

# Concrete Saw Series

## ATP WBS-20 Air Powered Concrete Saw

Rugged, powerful air powered saws for those tough jobs like floor cutting, joint sawing, road and highway repairs, side walk and driveway repairs and in-plant maintenance.

### Features:

- Quick and easy adjustable cutting depth to 7" with 20" Blade, to 6" with 18" Blade.
- 34" water attachment standard, 8 gallon water tank available as an extra cost option.
- Powerful Air Motor and Rugged Gear Box for low maintenance, no belts, no carburetors to maintain.
- Large capacity on board Oiler for precise Air Motor lubrication.
- No gasoline or engine exhaust to mess with.
- Dust extraction vacuum port standard.
- Wet or Dry cutting of Concrete, Asphalt and other materials.
- Solid wheel and tires for years of trouble free service.
- All steel construction for low vibration and long service life.
