

Hammer Tool Series

ATP Scalers

ATP Scalers are offered in a compact design for close quarter work removing weld flux, paint, scale, weld spatter, rust and other residue from a variety irregular surfaces in fabrication shops, shipyards foundries, refineries, construction sites and MRO applications.

Features:

Rugged design and precision manufacturing specifications make these Scalers last longer with low maintenance costs. Model A-1ALT Scaler quickly converts to Needle Scaler for better tool utilization.

**ATP A-1ALT
Weld Flux Scaler**

**ATP A-1ALTNS
Needle Scaler**

**ATP A-1AS
Solid Back
Head Scaler**

**ATP A-1ACO
Coke Oven Scaler**

ATP SCALERS

MODEL#	Scaler Model Type	Throttle Type	Bore x Stroke		Weight		Length		Inlet Size
			in. (mm)	x in. (mm)	lb.	kg	in.	mm	
ATP A-1ALT	Weld Flux Scaler	Lever	1 (25.4)	x 1-1/8 (28.8)	4.5	2.17	9-1/2	243	1/4" NPT
ATP A-1ALTNS	Needle Scaler	Lever	1 (25.4)	x 1-1/8 (28.8)	6	2.7	17-1/2	448.7	3/8" NPT
ATP A-1AS	Solid Back Head Scaler	*Solid Type	1 (25.4)	x 1-1/8 (28.8)	4	1.81	8-1/2	217.9	1/2" NPT
ATP A-1ACO	Coke Oven Scaler	Coke Oven	1 (25.4)	x 1-1/8 (28.8)	5	2.27	11-5/8	298	1/2" NPT
ATP A-1APT	Push Throttle Scaler	Push Type	1 (25.4)	x 1-1/8 (28.8)	4.5	2.17	10	256.4	1/4" NPT

** BPM 4600 all models. *A-1AS has no throttle built into the tool.

Hammer Tool Series

ATP 3161 Triple Piston Scaler

The Three Piston Scaler provides rapid, hard hitting vibratory action for removal of old paint, loose concrete, rust and scale in shipyard, fabrication, construction and MRO operations.

Features:

The throttle handle may be positioned on either the narrow or the wide side of the tool to suit the application. Heat Treated pistons and cylinders ensure excellent durability, simple valveless design reduces maintenance down time.

ATP 3161

ATP 3161 TRIPLE PISTON SCALER

MODEL#	Piston Description	Blows Per Minute	Height		Length		Weight		Throttle
			in.	mm	in.	mm	lb.	kg	
ATP 3161	Three Steel	3800	4	102	15-3/8	391	9.3	4.25	Lever
