

Scabbler

Applications: The CP-0006 Scabbler is the ideal tool for cleaning and roughing concrete and construction joints. The tool can also be used to produce ornamental or contrasting finishes on road and building structures.

Features

- Lightweight, compact tool with contoured grip handle – reduces operator fatigue; increases output
- Tungsten carbide-tipped pistons – last longer; are easily replaced
- Back head grip – gives in-line thrust
- Chamfered cylinder block – increases visibility of the work piece permitting close-up operation in corners
